DCBOE to Conduct Pre-Election Testing of Voter Equipment

WASHINGTON, D.C. – The District of Columbia Board of Elections (DCBOE) will conduct the process known as “Logic and Accuracy Testing” of voting equipment in preparation for the November 3, 2020 General Election.

This process takes place prior to each election to verify that all voting equipment used will accurately count the votes cast in all contests. Testing is tentatively scheduled to begin on Monday, September 14, 2020 at 10am and will conclude at such time as the testing is complete. Testing will occur at 3535 V St NE.

Anyone interested in observing this process should contact the DCBOE Media Team at press@dcboee.org or at (202) 779-8387.

The District of Columbia Board of Elections is an independent agency of the District of Columbia Government responsible for the administration of elections, ballot access, and voter registration.
