CHAIRMAN BENNETT: Good morning. As I said earlier, this is the May meeting of the 2021 meeting of the D.C. Board of Elections. We've got a relatively short agenda, so we'll get started on that. I call the meeting to order. The first thing I want to do even before checking a quorum, is a court reporter present and can they hear okay?

COURT REPORTER: I am present, and I can hear you.

CHAIR BENNETT: Okay great, thank you. So my name is Michael Bennett. I'm chair of the Board of Elections, and I want to ascertain a quorum. So if I could get Ms. Greenfield to acknowledge her presence by --

MEMBER GREENFIELD: I'm here.

CHAIR BENNETT: Okay, great. Can I get Mr. Gill to acknowledge his presence?

MEMBER GILL: And I'm here. Mike
Gill's here.

CHAIR BENNETT: Great, okay. So we have a quorum. I'm Michael Bennett, so all three Board members are here. The adoption of the agenda and the approval of the minutes from the last Board meeting. Can I get a motion from Mr. Gill relative to the adoption of today's agenda and the approval of the minutes from the last meeting?

MEMBER GILL: I move that we adopt to this agenda and the minutes from the previous meeting.

CHAIR BENNETT: Can I get a second from Ms. Greenfield?

MEMBER GREENFIELD: Yes, I second.

CHAIR BENNETT: Okay. It's been properly moved and seconded. Voice vote. Ms. Greenfield?

MEMBER GREENFIELD: Aye.

CHAIR BENNETT: Mr. Gill?

MEMBER GILL: Aye.

CHAIR BENNETT: Aye from me as well,
and so it's unanimous. The agenda for today and the minutes from the last meeting are adopted.

Any Board matters? Mr. Gill?

 MEMBER GILL: I have no Board matters.

 CHAIR BENNETT: Ms. Greenfield.

 MEMBER GREENFIELD: I don't have any either.

 CHAIR BENNETT: Okay, and no Board matters from me as well. So we will move to the report from the Office of Campaign Finance, Ms. Cecily Montgomery.

 MS. MONTGOMERY: Yes.

 CHAIR BENNETT: Can you check your mic and make sure it's on? It's been so long. There you go.

 MS. MONTGOMERY: Good morning. First, I would like to report that the Office of Campaign Finance continues to operate under a modified status. Again, all of our services are being provided remotely via email and telephone at 202-671-0547. All candidates and committees (audio interference) required deadline (audio
interference) instructions concerning the registration process.

CHAIR BENNETT: Everybody, and if you can mute yourself that would be great. All right. Go ahead, Ms. Montgomery.

MS. MONTGOMERY: Okay. In the Fair Elections Program during the month of April, I would report that as of April the 30th, 2021, the total sum of $4,016,797.64 has been dispersed from the Fair Elections Fund, in base amount and matching payments to the 36 candidates who certified, who are certified by the agency and the Fair Elections Program to participate in the November 3rd, 2020 general election, the June 2nd, 2020 primary election, and the June 16th 2020 special election.

The 2020 election cycle closed on November the 3rd, 2020, and the 2020 special election cycle closed on June the 16th, 2020. During the month of April 2021, there were no disbursements authorized for base amount and matching payments from the Fair Elections Fund.
In the division in terms of the audit process, the Fair Elections Division conducted 11 desk reviews of termination and amended reports of receipts and expenditures which were filed with the agency. It also issued six requests for additional information from committees as a result of the desk reviews.

With respect to remitted funds, as of April the 30th, 2020, total funds of $132,148.07 from at least 16 participating candidates in the June 16th, 2020 special election, the June 2nd, 2020 primary election and the November the 3rd, 2020 general election have been remitted for deposit in the Fair Elections Fund from their campaign operations.

The exact amounts and the names of the candidates are listed in our report. Our report will be placed at the OCF website by the close of business today for further review.

During the month of April 2021, the Office of Campaign Finance did not receive any further remission payments. There are 34 ongoing
post-election audits in the Fair Elections Branch, and basically the audits are being conducted of the campaign operations of those candidates who participated again in the primary election, the general election and the special election.

The status of the post-election audit is also contained in my -- in the Office of Campaign Finance report, and that information again will be available at the OCF website at the close of business today.

In our Public Information and Records Management Division, during the month of April there were five deadlines for the filing of reports of receipts and expenditures. The first was by our Constituent Service Programs. The report was due on April the 1st, 2021. There were eight compliant filings all timely filed, and they electronically filed their reports.

With respect to our Senator/Representative files, April 1st was also the deadline for the filing of their reports of
receipts and expenditures. There are three required filings. All three timely filed and they electronically filed their reports.

With our Legal Defense Committee, the 15th report of receipts and expenditures was due on Monday, April the 1st, 2021. There's one required filing. They timely filed and also electronically filed their report.

With our Political Action Committees, April the 10th was the deadline for the filing of their report of receipts and expenditures. Because the 10th fell on the weekend, the first business day was Monday, April the 12th, 2021. There were 51 required filings, 50 timely filed. We had one filer who requested an extension and the request was granted, and all 50 of the timely filers electronically filed their reports.

With our Independent Expenditure Committees, also April the 10th was the deadline for the filing of their report of receipts and expenditures. Again because of the weekend, the due date fell on Monday, April the 12th, 2021.
There were three required filings. All three timely filed and electronically filed their reports.

I'm going to now update you on the filing of the ANC candidates who were required to file their financial summary statement on Friday, March the 26th, 2021. There were 426 required filings. 363 timely filed. There were two extensions granted for late filing. There were 60 failures to file. There were 60 referrals to the general counsel for the failure to file, and all 364 of the candidates who timely filed and also for whom an extension was granted electronically filed their reports.

During April 2021, we had three candidates and committees who registered with our office. The first was a Fair Elections candidate, Ryan Jones. Ryan Jones for Attorney General registered on April the 25th, 2021. Statehood Fund Committee Oye Owolewa as the U.S. Shadow representative registered on April the 23rd, 2021.
We have a New Initiative Committee. Elizabeth Davis Education Equity Pathway Policy Act of 2022 registered on April the 23rd, 2021. We also had one candidate who completed the OCF entrance conference presentation during March, and that was Ryan Jones, candidate Ryan Jones for AG. And actually I believe that should be April, but I will check on the date.

Again, we referred on the PIRM, the Public Information Records Management Division referred 60 candidates for the Office of ANC Commissioner to the Office of the General Counsel for the failure to timely file their ANC financial summary statement. The names of those candidates are listed in the report, and may be reviewed at our website.

In our report's Analysis and Audit Division, and that is the Audit Division for our traditional program, during the month of April the Audit Division desk reviewed 96 reports of receipts and expenditures which had been filed with the agency. They also issued 13 -- I'm
sorry. They resolved 13 cases in which there had been outstanding requests for additional information.

The report of Analysis and Audit Division also issued two audits during the month of April. The first was ABC, a Metro Washington PAC, and that was issued on April the 15th, 2021, and the Ward 3 Constituent Service Fund, which was issued on April the 23rd, 2021. Those were compliance audits and the audits are available at our website for review by members of the public.

I would also add that when I report to the Board concerning the financial reports that are electronically filed on any due date, that those are available in real time for review by members of the public as well.

That concludes my report, but I would ask that the general counsel for the Office of Campaign Finance, William SanFord, provide the report of the General Counsel's Office.

CHAIR BENNETT: Thank you, Ms. Montgomery. Mr. SanFord.
CHAIR BENNETT: Can you unmute, Bill?

MR. SANFORD: Good morning.

CHAIR BENNETT: Good morning.

MR. SANFORD: Good morning, Mr. Chairman and distinguished Board members. This is William Sanford, general counsel for the Office of Campaign Finance. During the month of April 2021, the Office of the General Counsel receives 61 referrals of Advisory Neighborhood Commissioner candidates who failed to timely file. One was subsequently withdrawn, leaving the total to 60. The Office completed 14 informal hearings and issued 14 orders, which included (audio interference).

Three orders were issued in which no fines were imposed, and 11 orders were issued in which fines that totaled $15,750 were imposed.

During the month of April 2021, the Office of the General Counsel imposed fines against the following respondents:

A fine of $100 was imposed against
2020 Elect Dorothy Douglas principal campaign committee. A fine of $2,450 was imposed against Citizens to Elect Bill Lewis 2020 principal campaign committee. A fine of $1,500 was imposed against Kishan for DC 2020 principal campaign committee. A fine of $500 was imposed against Dorothy Douglas At Large State Board of Education principal campaign committee.

A fine of $1,600 was imposed against Fred for Ward 4 principal campaign committee. A fine of $2,050 was imposed against John Fanning for Ward 2, the primary election principal campaign committee, and a fine of $2,500 was imposed against John Fanning for Ward 2 Special Election principal campaign committee.

A fine of $1,000 was imposed against Patrick Kennedy for Ward 2 Special Election. A fine of $2,150 was imposed against the Committee to Elect Stuart Anderson principal campaign committee. A fine of $750 was imposed against Ed Lazere for D.C. Council at Large principal campaign committee, and finally a fine of $1,150
was imposed against the Committee to Elect Chris Edu Tech principal campaign committee.

During the month of April 2021, there were no open investigations. There were no requests for interpretive opinions, and no show cause proceedings were conducted. That sir concludes my report.

CHAIR BENNETT: Thank you, Mr. SanFord. Anything else, Ms. Montgomery? Okay. Do I have any questions from Ms. Greenfield?

MEMBER GREENFIELD: No, I don't have any questions.

CHAIR BENNETT: Mr. Gill?

MEMBER GILL: No questions. Thanks Williams, thanks Cecily.

CHAIR BENNETT: I have none as well. Thank you both as well. Next on the agenda is the report from the executive director, Board of Elections, Ms. Alice Miller.

MS. MILLER: Thank you, Mr. Chairman. Just an update. As I reported last month, we are in the middle of the biennial canvass. Creation
of canvass cards are in the process, and we're updating those accordingly based on the data that we received back. As of now, the cards are coming back in in one way or another, coming back in slowly.

Undeliverables, we've received 4,562. 953 cards have come as (audio interference) and 40 deceased. So we appreciate everyone's continued cooperation with returning the updated information as the cards are received at your home. It's very important for the maintenance of the voter rolls.

So we would just ask that as this process is labor intensive and takes months to complete, given the procedures that we're required by statute to follow. But again if you receive a canvass card at your home where the name of the person whom the card is addressed does not live there, please follow the instructions on the card and return it back to the Board's office with the appropriate information and updated as required.
Cards have been mailed to all voters at the address on the Board's records of those individuals who chose not to vote in the 2020 election. With respect to voter ID cards, individuals who have updated or moved within the District for the month of April, we've mailed out 5,146 new or updated voter ID cards during last month.

I want to talk a little bit about our VR system, our new voter registration system. As you know, we've been working on updating our old voter registration system with the new system. The updated system, which was contracted -- the contract was approved in February of 2019, was put on hold last year with the challenges associated with conducting the election.

We picked up the project beginning in February of this year. We've been performing testing for the system with each division in order to determine the implementation and functionality of the system. At this point, testing has been going well. We are scheduled to
test the election worker portal tomorrow, that's Thursday.

The targeted goal is to have the full mock election of all units ready to be tested by mid-June. It's set to go live with the new system by September, so that would be in plenty enough time for next year's elections. Just so the new VR system is a major overhaul. It has been a long time in the planning process.

Once this system is successfully in place and implemented, it will be the first time that the voter registration has been updated in over 20 years.

As you may know, we're currently working from a Pascal programming language model with some tweaks along the way that allowed for us to function in the world of current technology. This system brings ideally current updated processes based on the latest technology (audio interference), with front end and back end data, a base platform for our business needs and will eliminate many of the challenges that we
currently face but are able to manage with the old system through band-aids and patches here and there.

With respect to our Voter Education Outreach Division, they've been -- we have begun engaging District residents about voter registration requirements and voting in the District of Columbia (audio interference) events. On March 9th, there is a virtual Back to Work D.C. Back to Work D.C., a job seeker resource fair with D.C. Department of Employment Services, and on April 30th, (audio interference) a vendor supervision agency who sells (audio interference).

April was (audio interference) Second Chance Month and a virtual forum, a guide to inform criminal justice-involved citizens of rights and resources that empower reentry success from VOE's end. We remind the participants there that they should feel empowered as a returning citizens in the District because they have rights most returning citizens do not have, such as the
right to register and vote.

They should, and that they should register or update their voter registration information if their address has changed since their release from confinement. And as you all know, we did host, excuse me, two town hall meetings last month, interacting with voters about their voter experience from the general November 2020 election.

The Board was interested in obtaining voters' opinions on what worked for the general election such as the all mail ballots, mail drop boxes, vote centers, our messaging pushing election week versus election day at our Super Vote Centers, ballot tracking and other issues. Voters were generally appreciative of the time the Board took to host the meetings.

We received a lot of good feedback for the Board to consider and discuss for our planning for the 2022 election cycle. I believe there's some conversation in consideration for scheduling another town hall in the future.
Just from a personal perspective, I want to indicate that I was a panelist on the Carter-Baker Commission, which was hosted on April 28th, where I was asked to discuss, along with the Secretary of State from Washington State, Kim Wyman; the director for the state election directors in Colorado, Judd Choate; Tammy Patrick, who was associated with the Democracy Fund; and Doug Chapin, who moderated the panel.

We talked about mail voting 15 years later after the Carter-Bacon Commission had reviewed this process. And so that is actually streamed. I think it's online and you can watch the whole panel discussion, and again it's the Carter-Bacon Commission. It was the April 28th panel discussion. That concludes our report.

CHAIR BENNETT: Great. Any questions from Ms. Greenfield?

MEMBER GREENFIELD: No, I don't have any questions. I do want to say I'm glad about the voter registration system, the fact that
we'll have a new one by September.

CHAIR BENNETT: Great. Mr. Gill?

MEMBER GILL: Again, no questions.

That's good news, Alice.

CHAIR BENNETT: Great. I do have a request actually, and that is just to talk a little bit more about the process by which we're trying to -- we go through all the time to update the voter registration rolls, the voter rolls. One of the things that we heard in the town halls consistently was questions around how we, you know, make sure that we have as a -- to use a term somebody used, a cleaner voter registration rolls as possible.

I think a lot of people really don't know the extensive process we go through in these off years to try and, you know, make sure that we clean up the voter rolls as much as possible. However that said, there's not much we can do that goes a whole lot further than -- that does not include voter feedback and voter participation in the process to clean up the
rolls.

So it's important, knowing that we're going through the process, to reach out to voters, but also that voters reach out back to us too. Just as a comment, one of the things that states like Washington and Oregon have had great success at, and that is creating a relationship with voters similar to the ones that most states have with their persons that hold driver's permits.

So when you move and you have a driver's permit, one of the first things you do is to make sure that you correct your driver's license. Well in voting, we need to make sure that we have relationships with registered voters, such that they are, you know, constantly thinking about making sure that their voter registration is up to date in terms of addresses and going forward really, email addresses as well.

So anyway, if you could just talk about that just a little bit more Ms. Miller,
relative to the basic things that we're doing and that we always do.

MS. MILLER: Yeah. So by law we are required to canvass individuals who chose not to vote in the previous general election. That would be our November 2020 election. So we mail a card out to those individuals and request that they confirm their voter registration information.

If the card does not come back, then we assume that they are registered to vote. If the card comes back to us, then we send a second notice, which is affordable, affordable card. We send two cards back. It involves two multiple mailers. One is affordable as required by law, request the voter to update and return the card back to us.

Again, it's part of the list maintenance procedure. We cannot just remove someone from the rolls because they chose not to vote. We have to receive some kind of positive information from the voter that indicates or from
someone who's living at the address, the last
to be at the address. We have on file for that voter that
indicates that the voter no longer lives there
before the voter can be removed and put or placed
in inactive status.

It's a long and enduring process. It
generally takes about six to eight months to
complete just the canvass process, and that's how
we ask our voters to help us, participate with us
and work with us to get this done. We do not
have the authority to just remove someone from
the voter roll.

CHAIR BENNETT: Thank you. Well with
that, then I'll just move on to the next item on
the agenda, and that is General Counsel Report,
Ms. Terri Stroud.

MS. STROUD: Good morning everyone.
Right now the Board or the Office of General
Counsel is in a rare space, where there is no
active litigation. We are working on rulemaking
but have none to present at today's meeting. We
have been busy processing FOIA requests and
providing general support to the administrative
support to the agency as well as answering the
candidate inquiries, as well as queries from
individuals who are interested in filing valid
access measures.

I would like to note that on April
17th, the home going service for the Board's
former senior staff attorney Rudolph McGann was
held on April 17th and it was a beautiful
service, which was a celebration of his wonderful
life and legacy. That is all I have.

CHAIR BENNETT: Okay, go ahead.

MS. MILLER: I just want to add an
addendum to what I said. Removal from the voter
roll can occur if we receive mail back from the
post office that indicates that a voter no longer
lives here, and we have done the due diligence
that we need to do with return -- with respect to
that process, to make sure that the voter will
receive official mail indicating that there is no
one at the address. We want to make sure that
that process, you know, is clear.
CHAIR BENNETT: Thank you. Any questions for Mr. Stroud? Ms. Greenfield.

MEMBER GREENFIELD: No, I don't have any questions.

CHAIR BENNETT: Mr. Gill?

MEMBER GILL: No questions. Thanks Terri.

CHAIR BENNETT: Okay. I just wanted to add that with regard to Rudy McGann, one he is missed even now, and the celebrations that were held to celebrate his life were actually beautiful and I think very supportive of the family. Those of you knew him and know the family, you also know that, you know, this process is not one that comes and goes in a matter of a couple of weeks.

So anything that people can do reach out and if nothing else give an encouraging word to the family and his friends and loved ones would be sure appreciated by all. We know how close he was to many people here, and we will continue to support those persons here who have
to walk that journey of missing him as well. So hats off again to Counsel Rudolph, our attorney Rudy McGann.

With that, since there are no more questions for Ms. Stroud, I'd like to turn over to public matters. We have a few people here from the public. If you are on a computer, if you could raise your hand on the computer. If you're on a cellphone or on a phone, you just press *9 and you will be acknowledged and recognized. So Andy, if you can open that up.

MS. BRIZILL: Hi. This is Dorothy Brizill. I'd like to speak to the Board.

CHAIR BENNETT: Yes, Ms. Brizill, you are recognized. If you could give, as you know, your name and address, and make your comments, ma'am.

MS. BRIZILL: Okay. My name is Dorothy Brizill, B-R-I-Z-I-L-L. I am head of D.C. Watch. Our address is 1327 Girard Street, N.W. I would like to get further details regarding the upgrade to the voter registration
computer system at the Board. Could Ms. Miller explain the scope of the upgrade? Is it solely focused on voter registration?

MS. MILLER: Yes. It's a voter registration system, that's it.

CHAIR BENNETT: So is it -- I'm sorry, Ms. Brizill, go ahead.

MS. BRIZILL: So solely focused on voter registration?

MS. MILLER: Yes. It's just a voter registration system.

MS. BRIZILL: So what about the systems, the computer systems used in the Board of Elections that tabulate votes and everything? Those computer systems and other IT issues are not being addressed in this upgrade?

MS. MILLER: That was not the scope for this procurement. The scope for this procurement was solely to update the voter registration system.

MS. BRIZILL: Are there any plans on the book to update the other computer systems the
Board of Elections relies on, such as those used to tabulate the votes?

MS. MILLER: We have IT enhancement requests in. We will get information on that once the budget has been finalized, yes.

MS. BRIZILL: Can I get further clarification about this upgrade of the voter registration system? Is it the direct results of the June 2016 report by the D.C. Auditor, part of the D.C. voter file, compliance with the law and best practices that was issued on July 26, 2016? If that upgrade the direct result of the auditor's criticism of the voter registration system at the Board of Elections?

MS. MILLER: I do not believe it has anything to do with that, Ms. Brizill.

CHAIR BENNETT: No that -- I'm familiar with the audit you're talking about. But no. The audit was -- we were, have been on a path to update, upgrade our voter registration system for a while, and this is the culmination. We had hoped that the system would have been in
place for the 2020 election.

However, there were some issues that caused us to not want to have that system online, you know, during a presidential election.

MS. BRIZILL: So the fact that a finding in that 2016 audit report by the D.C. Auditor, reviewing and criticizing the D.C. voter registration files at the Board of Elections, and recommending that the computer system of the Board of Elections needed to be upgraded, was not what precipitated this computer update at the Board of Elections?

CHAIR BENNETT: No. The recommendation that came from the audit was consistent with what we had intended to do anyway. It wasn't a recommendation that was ignored, Ms. Brizill. It kind of feels like that's what you're implying. The recommendation was consistent with what we had intended to do anyway.

MS. BRIZILL: I would prefer if you didn't imply or suggest that I was implying
anything. What I'm trying to do is understand how a 2016 report by the D.C. Auditor highly critical of the voter rolls of the Board of Elections comes full circle to this upgrade, which several years later in the (audio interference).

And moreover, I would also add if I could get an idea of why there was this 2016 report. There was a decision by the Council to provide the Board of Elections with $3 million in 2017 to upgrade the voter registration system, and you're saying that that system will not be upgraded and in place until September 2021? Why the long delay?

CHAIR BENNETT: There's no delay, Ms. Brizill. It just takes time. I mean these are not, you don't just pop one in and pull one out and pop another one in if you have issues around one procurement. But the other thing, the really big drivers are trying to make sure you have clear specifications as to what you want in your system.
And again, I'm not sure how else I can answer except the audit report was consistent with what we believed, going forward. We weren't, you know, just kind of reacting to the audit report. The audit reports are helpful in many instances, and certainly that one was as well, to confirm what we already had intended to do. But no, there's no delay. It just takes time to put these systems in place.

This is a huge overhaul of the voter registration system. We want to make sure that the IT and the system, the new system, is consistent and compatible with current technology and where we want to go.

MS. BRIZILL: Who oversaw the procurement process for this new computer system, someone at Board of Elections or someone at the Office of Contracts and Procurement?

CHAIR BENNETT: Office of Contracts and Procurement. We don't have procurement authority at the D.C. Board of Elections.

MS. BRIZILL: But you do have a staff
person who presumably would work with Contracts
and Procurement to write the specifications or at
least educate them as regards to what kind of
system and what the system needed to do that
would be put in place, right?

CHAIR BENNETT: We had a number of
people, including myself, that reviewed the
system requirements and made sure that we were
clear regarding what our needs were.

MS. BRIZILL: And it's being tested
now?

CHAIR BENNETT: I'm sorry?

MS. BRIZILL: It's being tested now?

CHAIR BENNETT: I didn't understand
what you said. Yeah. It's being tested now,
yes.

MS. BRIZILL: And who at the Board of
Elections is overseeing the testing?

CHAIR BENNETT: I don't know the
specific person, Ms. Brizill.

MS. MILLER: It's going to each
division, each registration division. They're
testing it along with the selected vendor.

MS. BRIZILL: Is the IT section at
Board of Elections the principal person or entity
overseeing the --

MS. MILLER: Yeah. All the IT staff
is involved, along with the unit divisions are
involved. The Registration division is involved.

CHAIR BENNETT: Everybody who actually
touches the system and uses the system will need
to make sure that the system can provide the
support.

MS. BRIZILL: Okay.

CHAIR BENNETT: All right, thank you
Ms. Brizill. Is there any other public comments?
As I said, raise your hand on your computer or *9
on your -- do you see anybody else Mandy? Can
you unmute everybody just in case? We have
unmuted everybody, so if you have for some reason
either in place, hit *9 for -- if you did not,
don't know how to raise your hand on the
computer, which I oftentimes don't, you have the
-- you just unmute yourself.
All right. With that, I will thank you for this meeting, and I'd like to get a motion to adjourn the meeting from Mr. Gill.

MEMBER GILL: I make a motion that we adjourn the meeting.

CHAIR BENNETT: All right. Can I get a second from Ms. Greenfield?

MEMBER GREENFIELD: I second.

CHAIR BENNETT: Okay. It's been properly moved and seconded, and I can get a voice vote. Ms. Greenfield.

MEMBER GREENFIELD: Aye.

CHAIR BENNETT: Mr. Gill.

MEMBER GILL: Aye.

CHAIR BENNETT: Very well. This meeting is adjourned. Thanks so much.
